

Course Objectives for N702 Confined spaces (High Risk)

It is envisaged that by the end of this course of training the learner will be able to answer questions on and perform the following:

- Have a basic understanding of the industry, the dangers of working in confined spaces and responsibilities as an operative
- To be able to enter & traverse a confined space, individually and as part of a team in a trained and competent manner
- Defining confined spaces
- Managing confined spaces
- Gas Detection – Hazardous atmospheres
- NPORS classification & applications under their control for low, medium, and high risk working
- Diseases/hygiene
- Working at height-harnesses, tripod, and winch
- Emergency escape breathing apparatus
